Ongoing Grant Calls

For further enquiries about the grants below, please contact Juliana Zheng at Juliana.Zheng@ntu.edu.sg or Goh Lim Hee at limhee.goh@ntu.edu.sg

1) 2nd A*STAR-AMED Joint Grant Call in Cell Therapy – A focus on quality, efficacy and safety

For the 2nd A*STAR – AMED Joint Call, A*STAR and AMED would like to invite early-career investigators* based in Singapore and Japan to submit their joint proposals in the area of Cell Therapy - a focus on quality, efficacy and safety.

Proposal submission requires a set of co-applicants that includes one Singapore-based and one Japan-based applicant.

Eligibility

Eligibility for Singapore-based co-applicants:

a. The Singapore-based co-applicants must be early-stage investigators* who will be the co-PIs for the project.

b. The Singapore-based co-applicants must reside in Singapore and be full-time employed researchers at a public sector research organization in Singapore, including hospitals, universities, polytechnics, and A*STAR research institutions, and they will carry out the proposed project at this institution.

c. Researchers who are able to bear overall responsibility for an R&D project throughout the entire project period.

d. For the avoidance of doubt, researchers from industry are not eligible to receive funding from A*STAR, but may participate via a joint collaboration with the successful co-applicants.

Eligibility for Japan-based co-applicants:

a. The Japan-based co-applicants must be early-stage investigators* who will be the co-PIs for the project.

b. The Japan-based co-applicants must be affiliated with a domestic Japanese research institution, and they will carry out the proposed project at this institution.

• Any individual who satisfies any of the following conditions is also eligible to apply as Japan-based Principal Investigator.

1. Researcher holding citizenship other than Japanese who belongs to a Japanese domestic research institution.

2. Researcher who is not currently affiliated with a particular research institution, but who will be affiliated with a Japanese domestic research institution and able to conduct research there if selected as Japan-based Principal Investigator.

3. Japanese researchers currently residing overseas who will be affiliated with a Japanese domestic research institution and able to conduct research there if selected as Japan-based Principal Investigator.

• Japan-based Principal Investigator must be able to take responsibility for the duties of the entire project for the full duration of the joint research project.

• Japan-based researchers from industry are eligible to participate in the joint research project in the Japan-based Team

* Early-stage investigator (ESI) – scientist who has completed a post-graduate education or end of post-graduate clinical training, whichever date is later, within the past 10 years.

Funding Support
- AMED and A*STAR will fund **up to 3 proposals**, each at a total budget of no more than 21 million yen from AMED and **no more than SGD$250,000 (includes 20% overheads)** from A*STAR for the entire project duration.
- AMED will provide support for the researchers based in Japan, and A*STAR will support researchers based in Singapore.
- The duration of a collaborative research project shall be **no longer than three years** (36 months) in total from the start date.

**Application and Closing Date**

- Singapore-based applicants are required to submit their **application form** and endorsement form from the head of host institute (Annex A) to BMRC, A*STAR by **02 July 2019, 17:00hrs (SGT)**, via A*STAR iGrants (https://app.a-star.edu.sg/igrants/).
- Japan-based applicants are required to submit their application form to AMED by **02 July 2019, 17:00hrs (JST)**, via e-Rad system (http://www.e-rad.go.jp/index.html).
- Completed application forms should reach RSO through RASS before **24 June 2019 (Tuesday)** for D-RSO's endorsement.

Please note the following internal submission deadlines:

<table>
<thead>
<tr>
<th>Date</th>
<th>Deadline for submission of Indication of interest (IOI) in Grant Directory</th>
</tr>
</thead>
<tbody>
<tr>
<td>10 June 2019</td>
<td>Internal submission of application form (softcopy) to RASS for administrative checks and School's endorsement</td>
</tr>
<tr>
<td>17 June 2019</td>
<td>Please submit the following: Application form (soft copy)</td>
</tr>
<tr>
<td></td>
<td>- Ensure that application form is signed by both Singapore and Japan applicants.</td>
</tr>
<tr>
<td></td>
<td>- As there is no specific CV template, it is recommended to be concise and within 2-3 pages.</td>
</tr>
<tr>
<td>24 June 2019</td>
<td>Deadline for submission of finalized application form (softcopy) and Annex A endorsement from Head of Institute (hardcopy) to RSO for NTU DOR’s endorsement (facilitated by RASS)</td>
</tr>
<tr>
<td></td>
<td>- Documents endorsed by NTU DOR will be returned to PIs to upload to iGrants.</td>
</tr>
<tr>
<td>02 July 2019</td>

### 2) MND CoT 1st Grant Call in Urban Environment Analytics now open for application

I. We are pleased to inform that the Urban Redevelopment Authority (URA) had launched the 1st Grant Call for the Urban Environment Analytics research thrust under the Cities of Tomorrow R&D Programme (CoT).

Please see key information regarding this grant in the table below:

<table>
<thead>
<tr>
<th>Background</th>
<th>1st MND CoT Grant Call (Urban Environment Analytics)</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Cities of Tomorrow (CoT) R&amp;D programme: A multi-agency effort, led by MND and funded by NRF under Urban Solutions and Sustainability (USS) domain under Research, Innovation and Enterprise 2020 (RIE2020)</td>
<td></td>
</tr>
<tr>
<td>• Grant call launch and coordinated by URA</td>
<td></td>
</tr>
<tr>
<td>• Vision of CoT: To establish Singapore as a highly liveable, sustainable and resilient city of the future, and as a vibrant urban solutions hub – a living model which features cutting-edge urban solutions.</td>
<td></td>
</tr>
<tr>
<td>• Focus of grant call: Horizontal 1 – Urban Environment Analytics</td>
<td></td>
</tr>
<tr>
<td>• 2 topics for this grant call – see below</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Grant call topics</th>
<th>1st MND CoT Grant Call (Urban Environment Analytics)</th>
</tr>
</thead>
<tbody>
<tr>
<td>• <strong>Topic 1</strong>: Senior Activity and Travel Pattern Analytics</td>
<td></td>
</tr>
<tr>
<td>• <strong>Topic 2</strong>: Activity Location Choice Modelling</td>
<td><strong>Pls may submit proposals to 1 or more topics listed above</strong></td>
</tr>
</tbody>
</table>

[For details and specific objectives/scope of each topic, please refer to “Annex B: Horizontal 1 Grant Call Topics” in the attached PDF “CoT Information Sheet (H1 Urban Environment Analytics”]

<table>
<thead>
<tr>
<th>Eligibility criteria</th>
<th>1st MND CoT Grant Call (Urban Environment Analytics)</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Lead PI: Must be based in Singapore</td>
<td></td>
</tr>
<tr>
<td>• Foreign organisations and experts may participate as Co-PI or Collaborator</td>
<td></td>

<td></td>
</tr>
<tr>
<td>• Max budget: Not specified by URA&lt;br&gt;<strong>Budget should still be realistic, well-justified and commensurate with proposed research</strong>&lt;br&gt;<strong>Further details will be shared later, once available</strong></td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Important note for all applicants</th>
<th>1st MND CoT Grant Call (Urban Environment Analytics)</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Industry collaborations are strongly encouraged.</td>
<td></td>
</tr>
<tr>
<td>• [Where applicable] Integration of relevant social and behavioural research to complement the R&amp;D work is encouraged, so as to ensure user-centricity and acceptability of the solutions proposed.</td>
<td></td>
</tr>
</tbody>
</table>
II. Interested applicants are requested to prepare their proposals in accordance to the funding guidelines. The guidelines are attached along with the Full Proposal template and CV instructions; additional templates from URA will be shared once they are available.

III. **Important notes:**

1. **Submission via IGMS**
   
   Online submission for this grant call will be conducted on IGMS. **No other mode of submission will be accepted.**

   To facilitate a smooth submission process on this platform, please take note of the following points:

   a) **ALL** team members must have an activated and verified IGMS account. Only collaborators do not need one.
      
      - For teams with Co-PIs from external organisations that do not have IGMS accounts, these Co-PIs would have to contact URA at the earliest – please see Point 10.2 of the Information Sheet for the contact emails.

   b) **Multi-step process in IGMS: PI submits à RSO manager verifies à D(RSO) endorses**
      
      - For submission of research proposals, PIs are requested to take note that administrative checking is done by applicants and RASS.
      
      - PI **MUST** upload all completed proposal documents (refer to Point 2d below) onto IGMS for the submission.
      
      - PI to login and make his/her submission early so that the proposal could be verified and endorsed in time before the grant call closes.

2. **Points to note**
   
   a) **“MANDATORY”** At least 1 PI/Co-PI has attended grant call briefing + pre-evaluation scoping workshop by URA
      
      - Pre-evaluation scoping workshop
        
      - Date/Time/Venue: To be confirmed later
        
      - More details will be shared once available from URA.

   b) PIs may submit proposals for 1 or more topics.

   c) **Support from ERIAN**
      
      - As with other CoT grant calls by MND and related agencies, ERIAN had kindly offered to support all interested PIs with their applications.
      
      - ERIAN will review the Indicative Interest submitted, then match PIs with relevant industry partners and also provide advice to improve the proposals.
      
      - For PIs who would prefer to opt of this process by ERIAN, please advise them to state so in their Indicative Interest submission on Grant Directory.

   d) **Templates**
      
      - There are a total of 4 templates to use: Full Proposal, Budget, Capability Indicators and CV.
      
      - However, at the moment, only the Full Proposal and CV templates are available.
3. Internal deadlines
   a) Actual IGMS submission: As per Point 1b above, PIs must complete their online submission in IGMS *early, 3 Jul 2019, 12pm.*
      Time is required for the submissions to be checked for compliance to the funding requirements and guidelines.
      *Late submissions might not be verified and endorsed in time by URA’s closing date.*
   b) Internal submission:

<table>
<thead>
<tr>
<th>Deadline</th>
<th>Purpose</th>
<th>Submitter</th>

3) Workforce Development Applied Research Fund (WDARF) – Grant Call April 2019

The WDARF is a national level research fund to encourage inter-disciplinary research in the areas of workforce development and lifelong learning. Administered by Institute for Adult Learning Singapore (IAL), the grant is awarded through an open, competitive bidding approach. The research proposals to be funded will be approved and evaluated by a technical expert review and a Research Committee.

The WDARF Grant Call 2019 is seeking proposals under three research thrusts:
- Enabling and Sustaining Economic Performance through Workforce Development and Skills;
- Shaping Employment and Continuing Education and Training (CET) Decisions of All Stakeholders; and
- Developing Effective and Impactful Approaches in Learning, Technology and Pedagogy to Enhance Continuing Education and Training (CET).

Eligibility:
- The grant call is open to Singapore institutions including tertiary institutions and training providers, social and industry groups, as well as Government bodies with research units.
- Foreign institutions and researchers may partner these institutions to submit proposals for the grant call.
- The Principal Investigator must fulfil the following requirements at the point of application:
a. Holds a primary full-time appointment (defined as a minimum commitment of 9 months/year) or an affiliation with an institution (may be local or foreign);
b. Holds an EdD or PhD qualification;
c. Has at least five (5) years of research experience, and having assume the responsibility of a Principal Investigator or Co-Principal Investigator for at least one (1) research project;
d. Has managed project grants of the magnitude requested in the application; and
e. Has a track record of leadership ability in leading research projects and providing mentorship to research team, as well as having productive research outcomes.

- The research team can comprise international researchers but must include at least one Singaporean or Singapore Permanent Resident. The researchers or research partnerships would be expected to have a mix of skills including:
  a. A strong understanding and appreciation of the broad policy context in the area of workforce development and lifelong learning, and its linkages to the SkillsFuture and workforce development practices and policies;
  b. Research and analytical expertise in one or more social, economic or behavioral science disciplines, and the use of multi-disciplinary approaches where appropriate.

Terms of Award:
- All submitted proposals will be evaluated by an expert panel appointed by SkillsFuture Singapore (SSG). The proposals and inputs from the expert panel will be submitted to the SSG Research Committee for selection and approval.
- Successful proposals which are accepted and approved by the SSG Research Committee will be notified by Q1 2020.

Application Procedure:
- Please refer to the WDARF Research Focus and read the WDARF Application Guidelines carefully before you complete the application form. All applicants are requested to ensure that they have complied with the WDARF application guidelines.
- Application for each research proposal is to be submitted using the prescribed WDARF Application Form (Form A2) as attached in this email. Proposals will be rejected for incomplete submissions (e.g. missing documents, missing signatures, sections left blank and so on) and failure to adhere to templates provided (e.g. proposal template, timeline and so on).
- All applications have to be verified by School and endorsed by DOR before it can be considered for evaluation.

Research Timeframe:
- Project duration shall be up to 18 months, and adhere to the approved timeline committed in the proposal.
- Projects longer than 18 months may be funded in phases and subject to approval.
- For research programmes, funding period shall be up to 3 years.

Please note the following key timeline for your attention:

4) NIE OER 22RFP Education Research Funding Programme (ERFP) Grant Call Announcement

The Office of Education Research (OER), National Institute of Education (NIE), Nanyang Technological University, is pleased to announce its 22nd Request for Proposals (RFP) for the Education Research Funding Programme (ERFP). The 22RFP will be the first call to open to Institutes of Higher Learning (IHL) with the aim of fostering stronger collaborations with IHL partners.

Focus of Research
There are five priority research foci that are of strategic interest to MOE. Researchers are encouraged to explore research lines of inquiry in these priority research foci.

i. Instructional Core
ii. Contexts of Learning
iii. Early Childhood Education
iv. Bilingualism and Biliteracy Education
v. Lifelong Learning

NIE OER welcomes applications for the 22RFP in all subject areas, including the strategic research foci identified by MOE as mentioned above. Please find appended the 22RFP Grant Call Document for more information.

ERFP Funding Quantum

</tbody>
</table>

Submission:
Please inform RASS (Juliana Zheng at Juliana.Zheng@ntu.edu.sg) by 1 May 2019 if you are interested to apply.

RASS will follow up with you regarding the internal timeline for submission.

5) HBMS IAF-PP Cycle 5 Grant Call

The Health & Biomedical and Sciences (HBMS) Domain Industry Alignment Fund Pre-Positioning (IAF-PP) Cycle 5 Grant Call is now Open for Letter of Intent (LOI) Submission (Deadline: Monday, 15 July 2019, 1800h).
Background

The IAF-PP supports the development of industry-ready capabilities towards deepening alignment of public sector research, and the development of multi-disciplinary and integrated programmes with early industry involvement. Programmes are expected to lead to industry participation within 3-5 years. This encompasses new programmes, as well as existing programmes that have demonstrated strong track record of success and industry potential. Programmes supported should be aligned with the HBMS Domain’s themes and strategies (Please refer to https://www.nrf.gov.sg/rie2020/health-and-biomedical-sciences).

Key Criteria

The proposed programme should adequately demonstrate the potential for industry development and economic impact. The detailed evaluation criteria list is enclosed for information. Please note that the evaluation criteria apply at both the LOI and the Full Proposal stages.

Eligibility

The Programme Director should:

- Hold at least 0.7FTE primary appointment in a Singapore publicly funded research or tertiary education institution;
- Run a laboratory or research programme that carries out research in Singapore; and
- Have a track record of leadership ability in coordinating research programmes and providing mentorship to the research team, as well as having productive research outcomes.

Funding Quantum

There is no minimum and maximum funding quantum for projects funded under IAF-PP. Due diligence will be conducted to ensure that projects are budgeted appropriately.

- **Other Operating Expenses (OOE):** Total OOE/FTE/year: SGD 60,000
- **Travel Budget:** Capped at SGD20,000/year/programme and used only for purposes specific to this programme.
- **Overheads:** Should be budgeted in as required by the respective institutions, capped at 20% of direct research costs.

Kindly take note of the following internal submission deadlines:

<table>
<thead>
<tr>
<th>Date</th>
<th>Deadline</th>
</tr>
</thead>
<tbody>
<tr>
<td>28 June 2019, (Friday)</td>
<td>Deadline for submission of Indication of interest (IOI) in Grant Directory.</td>
</tr>
<tr>
<td>01 July 2019, (Monday)</td>
<td>Deadline for submission of LOI by PI to RASS for admin checks</td>
</tr>
</tbody>
</table>

If the PI needs to commit any resources (e.g. in-kind contributions) from NTU, please get the necessary approval.

Please submit the following:

- Completed LOI (using 3. IAF-PP (HBMS Domain) Letter of Intent (LOI) Template_Apr2019.pptx in the zip file)
Completed LOI will be sent to Dean’s office for School’s endorsement, as requested by RSO (facilitated by RASS).

<table>
<thead>
<tr>
<th>Date/Time</th>
<th>Event</th>
</tr>
</thead>
</table>
| 09 July 2019, 1200h (Tuesday) | **Deadline for submission to RSO for NTU DOR’s endorsement (facilitated by RASS)**
Submission of the following to RSO by RASS:
- Completed LOI
- Endorsement from School
- Submission summary table |
| 15 July 2019, 1800h | **Submission to A*STAR by PI**
- RSO will send the proof of endorsement from NTU DOR (email in PDF format) to RASS.
- PI is required to submit the (i) completed LOI together with the (ii) proof of endorsement from NTU DOR (email in PDF format) to IAF-PP secretariat at IAF-PP_HBMS@hq.a-star.edu.sg by 15 July 2019, 1800h. Please copy rso-astar@ntu.edu.sg in the email as well.
Submitted LOIs will be reviewed by LOI review panel and only shortlisted LOIs will be invited for full proposal submission. |
| Late Aug 2019 | LOI results announced |
| 14 Oct 2019 (1800h) | Full Proposal Submission |

More Information
Please refer to [https://www.a-star.edu.sg/Research/Funding-Opportunities/Grants-Sponsorship/IAF-PP.aspx](https://www.a-star.edu.sg/Research/Funding-Opportunities/Grants-Sponsorship/IAF-PP.aspx) for more information on the HBMS Domain IAF-PP.
HBMS IAF-PP Cycle 5 Grant Call documents are attached for your reference.

6) SCS Cancer Research Grant 2019

**Details of grant call**

**Eligibility:** Open to all researchers from various cancer related disciplines, healthcare institutions and organizations in Singapore; from the public, private and voluntary sectors, which are involved in cancer care and/or research. Only one person can act as the Principal Investigator. Only one application per Principal Investigator per grant cycle is permitted.

**Amount funded:** up to $200,000

**Important notes on budget:**
- SCS does not fund overheads - *Approval to submit with zero overheads has been obtained by RSO.*
- Equipment cost should be less than 20% of total amount requested

**Project duration:** recommended ≈1 year (maximum with extension is 1.5 years)

**Research areas:**
• **Cancer prevention and screening** (e.g. risk factors; nutrition & dietetics; development and evaluation of screening test; cost-effectiveness analysis of screening program)
• **Cancer survivorship** (e.g. Cancer support programs, cancer rehabilitation)
• **Palliative care** (e.g. behavioural and psychological supportive care, symptom management)
• **Psychosocial and spiritual aspects related to cancer** (e.g. effects of cancer on patients, family members & caregivers; spirituality in cancer care; developing long-term solutions for cancer ‘epidemic’)
• **Health communication** (e.g. communication strategy to inform cancer patients and caregivers)
• **Health service program** (e.g. identifying critical gaps in evaluating and improving quality of cancer care)
• **Clinical research** (e.g. medical/surgical/radiation oncology, clinical pharmacology)

Proposal should address the above areas and consider its relevance to SCS services and programmes in terms of cancer prevention and screening, psychosocial support, survivorship support, cancer rehabilitation as well as palliative care.

SCS welcomes the following themes listed below (in no order of importance) as well:
• Public awareness on major cancers in Singapore
• Cancer screening barriers for the older age groups
• Comparison of different population-based cancer screening modalities
• Psychosocial intervention and Quality-of-life outcomes in cancer patients/survivors
• Lived experiences of cancer patients/survivors
• Investigation on the impact of cancer rehabilitation service on treatment outcomes
• Impact of cancer rehabilitation on improving work-related outcomes
• Multi-institutional cancer registry (at least three hospitals involved)

**Selection criteria for funding would be based as follows:**

a) Relevance of research topic to SCS programs and services
b) Scientific Merit of Project
c) Track record of Principal Investigator and study team
d) Feasibility of Project to successful completion
e) Reasonableness of budget requested

Interested PIs may look through the past awarded projects to ensure their proposal is within the SCS funding scope via the SCS website. Additional information is also available in the same website. [https://www.singaporecancersociety.org.sg/about/cancer-research.html](https://www.singaporecancersociety.org.sg/about/cancer-research.html)

Please take note of the following internal submission deadlines:

| 02 Jul 2019, Tues | Submit Indication of interest (IOI) at [NTU Grant Directory](https://www.singaporecancersociety.org.sg/about/cancer-research.html) |
| 15 Jul 2019, Mon | **Internal submission to RASS for Administrative Compliance Checks and School’s endorsement**
  Please submit the following:
  • Softcopy application includes - each file must be less than 2MB
    o Completed, duly signed application forms (Application Package Annex A & B) |
<table>
<thead>
<tr>
<th>Date</th>
<th>Description</th>
